The majority of people in America today have been overweight at some point in their lives. Millions of these people struggle with maintaining a healthy weight.

Other symptoms to look out for include dehydration, loss of appetite and a decrease in activity but both will promote healthy digestion and a healthy intestinal environment. Appropriate options can be considered.

A study suggested that cocoa consumption may also have a positive effect on non-alcohol-related fatty liver disease, which is commonly associated with obesity.

BioFit is a probiotic weight loss supplement by Nature's Formulas that contains over 5.5 Billion CFUs per pill and is designed specifically to support natural gut healing via high quality bacteria.

A new book, "The Anti-Inflammatory Family Cookbook," explores recipes and opportunities to encourage this kind of eating. It's co-authored by Jonathan Deutsch, PhD (BS '99), professor in the...
